Professional Summary

Computer Science Engineering graduate with hands-on experience in full-stack software development, AI-powered applications, enterprise automation, and mobile application development. Proficient in Java, Python, React.js, Node.js, Flutter, SQL, Firebase, and Microsoft Power Platform. Experienced in developing scalable web applications, AI-driven solutions, RESTful APIs, and enterprise software while leading development teams and delivering business-focused technology solutions.

Education

SIMATS University, B.E. Computer Science and Engineering Jul 2022 – Jul 2026 CGPA: 8.7/10	Chennai, Tamil Nadu
Sri Vidya Junior College, MPC 2020 – 2022 96.5%	Chirala, Andhra Pradesh
Kendriya Vidyalaya Sangathan (CBSE) 2020 61%	Suryalanka, Andhra Pradesh

Experience

Prodapt Solutions Pvt. Ltd. – Lead Software Engineering Intern Chennai, Tamil Nadu	May 2026 – Present
- Lead and mentor a team of interns in software development and enterprise projects. - Coordinate task allocation, project planning, stakeholder communication, and progress tracking. - Conduct technical reviews, knowledge-sharing sessions, and ensure timely delivery of project milestones. - Received the Star Employee of the Month Award for outstanding performance and leadership.	
Prodapt Solutions Pvt. Ltd. – Software Developer Intern Chennai, Tamil Nadu	Feb 2026 – Present
- Developed Android, web, and cross-platform applications using Java, Flutter, React.js, and Firebase. - Built business automation solutions using Microsoft 365, Power Apps, and Power Automate. - Developed EasyDine and ProDine digital dining solutions to improve customer experience and operational efficiency. - Worked on API integration, database management, cloud deployment, and application maintenance.	
Deloitte (Forage) – Data Analytics Virtual Intern	Feb 2026 – Mar 2026
- Analyzed operational datasets and identified machine downtime trends. - Developed Tableau dashboards and generated business insights using Excel.	
Deloitte (Forage) – Cyber Security Virtual Intern	Jun 2025 – Jul 2025
- Performed Identity and Access Management (IAM) analysis. - Recommended RBAC, MFA, and least-privilege security improvements.	

Projects

Build-an-AI-Powered-Document-Retrieval-System-with-IBM Granite & Docling
- Developed an AI-powered document retrieval and question-answering system using IBM Granite, Docling, and Retrieval-Augmented Generation (RAG). - Implemented document parsing, semantic search, and context-aware retrieval using IBM watsonx AI to improve enterprise knowledge discovery.
TalentCRM & CareerCompass – AI-Powered Recruitment and Career Platform
- Built full-stack web applications using React.js, Node.js, Express.js, MongoDB, and Firebase for recruitment management and AI-powered career guidance. - Developed secure authentication, role-based access control, REST APIs, candidate tracking, job management, and responsive dashboards.
UroSmart – AI-Based Urological Health Analysis System
- Developed an AI-powered healthcare application using TensorFlow Lite for urinary sediment analysis, disease prediction, and automated report generation. - Enabled secure on-device AI inference and real-time diagnostic support using deep learning and computer vision techniques.
BloodCellBuddy – AI-Powered White Blood Cell Classification Application
Built Android and iOS applications using Java, Swift, Flask, and MySQL for automated white blood cell classification.

- Trained TensorFlow CNN models on 10,000+ blood cell images and integrated TensorFlow Lite for secure mobile AI inference.

EasyDine – Cross-Platform Restaurant Ordering System

- Developed responsive web and mobile applications using React.js, Flutter, Firebase Authentication, and Cloud Firestore.
- Implemented role-based access, real-time order management, and deployed the web application on Vercel to deliver a seamless dining experience.

Cybersecurity IAM Simulation

- Performed Identity and Access Management (IAM) analysis using RBAC, MFA, Single Sign-On (SSO), and least-privilege principles.
- Evaluated access control risks and recommended security improvements to strengthen organizational security and access governance.

Skills

Languages:	Java, Python, C, C++, JavaScript, SQL, Dart, Swift
Frontend:	HTML5, CSS3, React.js, Tailwind CSS, Flutter
Backend:	Node.js, Express.js, Flask, REST APIs
Databases:	MySQL, MongoDB, Firebase Firestore, Supabase, DynamoDB
AI & ML:	IBM Granite, IBM watsonx AI, Docling, Retrieval-Augmented Generation (RAG), TensorFlow, TensorFlow Lite, Machine Learning, Deep Learning
Microsoft:	Power Apps, Power Automate, Microsoft 365
Tools:	Git, GitHub, Firebase, Vercel, Android Studio, VS Code, XAMPP, Postman, Render
Analytics:	Microsoft Excel, Tableau, Data Visualization
Core Concepts:	Data Structures, OOP, DBMS, Operating Systems, Computer Networks, Software Engineering, Authentication & Authorization, Cybersecurity, IAM

Certifications & Awards

- Certified Ethical Hacker (CEH) – EC-Council
- Oracle Database SQL Certified Specialist
- Fractal – Generative AI for Developers Specialization
- Scrimba – Vibe Coding Essentials – Build Apps with AI
- AI Agents Intensive Course – Google & Kaggle
- Coursera – Communicate Data Insights with Impact to Engage Stakeholders - Prodapt Badge
- NPTEL Internet of Things (Elite + Silver)
- Deloitte Cybersecurity Job Simulation
- Deloitte Data Analytics Job Simulation
- Tata Cybersecurity Analyst Job Simulation
- Outstanding Achievement Award 2025 – Tamil Thaa Foundation
- Star Employee of the Month – Prodapt Solutions Pvt. Ltd.

Research Publications & Conferences

- Deep-Learning Scheme to Detect Steel Surface Condition (ORCID: 0009-0000-4441-131X)
- Presented at SILICON'25 National Conference, Dr. M.G.R Educational and Research Institute.
- Participated in National and International Conferences on Artificial Intelligence and Engineering Technologies.

Hobbies & Interests

- Exploring AI tools and emerging technologies
- Competitive coding and problem solving
- Building mobile and web applications
- Playing cricket and indoor sports

Languages

English, Telugu, Hindi, Tamil
